### INTERESTING STATE NEWS

#### TOBACCO GROWERS

Wish Information About New Plant-  
ers' Protective Association.

Hopkinsville, Ky.—Much speculation has been caused among the farmers of Kentucky and Tennessee by the publication recently of articles of incorporation for the Planters' Protective Association of Kentucky, Tennessee and Virginia, it being presumed that the new corporation was formed to take the place of the Dark District Tobacco Planters' Protective Association of Kentucky and Tennessee, which was formed in September, 1904, and to which about 85 per cent. of the tobacco growers in the dark tobacco district now belong. In the brief notices which were first published regarding the filing of the first named articles, it was stated that the capital stock was \$200,000, but in the articles the capital is placed at only \$200. The same men are named as the officers of both corporations, and as the two do not seem to be at all compatible the farmers are very much stirred up over the situation. A card has been issued calling on President C. H. Fort and General Manager F. G. Ewing (as they are the officers of both associations) to publicly explain the relation of each corporation to the other.

#### MADDEN'S DIVORCE.

Charging His Former Wife With  
Fraud, Filed at Lexington, Ky.

Lexington, Ky.—The divorce petition drawn up several days ago by Attorney C. J. Branstetter for John E. Madden asking for a divorce from his former wife and custody of their two sons, Joseph and Edward, was filed here. The petition recites the facts of his marriage with Anna Louise McGee, the birth of their children and then states that she left him more than a year ago, and after a divorce from him granted in Ohio the former Mrs. Madden married L. V. Bell. He then declares that the divorce she procured was fraudulent and that her marriage to Bell is illegal. The allegations are substantially as published several days ago. He charges Mrs. Madden's divorce was fraudulently obtained and for the purpose of marrying Bell.

#### OLD GRUDGE

May Prove Serious.

Covington, Ky.—Noah Courtney, 18, and Jess Gillespie, 18, and George Gillespie, 17, brothers, came here from Palmouth, Ky., on an excursion. The three men, it is claimed, were drinking and have been engaged for a year. The three met at Louisville, avenue and Pike street. No words, it is said, were passed between them, when suddenly Courtney drew a small peck knife, cutting Jess Gillespie in the neck, inflicting a small wound. Both brothers ran in different directions. Later Courtney and George Gillespie met, Courtney it is said, attacked him with a knife inflicting two bad wounds in the neck, almost severing the nose and on the head. Gillespie was taken to the St. Elizabeth hospital, where he had his wounds dressed. Patrolmen Chipman and Bick arrested Noah Courtney on a charge of cutting with intent to kill, and Jess Gillespie with disorderly conduct. The latter claims the cutting was unjustifiable. Courtney claims it was an old grudge, but refused to tell the nature of it.

Were Panic Stricken When the Insur-  
ance Man Was Shot.

Holland, representative of a Louisville life and accident insurance company, was shot and seriously wounded by Buck Nolan in the dining room of the St. George Hotel, at Winchester. The shooting took place at the meal hour. The dining room was fairly well filled with guests, and pandemonium reigned. According to Nolan, who conducts a bar shop in the building, Holland engaged in a quarrel with him early in the afternoon. He was persuaded to leave the shop, and Nolan thought nothing more of the argument until he was attacked again by Holland in the dining room at supper, he says. He declares that Holland grabbed him from behind and began hitting him on the head and face, when he defended himself by firing one bullet into his antagonist. Holland was carried to his room in the hotel, and the physician said he can not recover. Holland is a native of Georgia and a brother of C. D. Holland, postmaster at McPherson, Ga.

#### PAIN FROM A BURN PROMPTLY RELIEVED BY CHAMBERLAIN'S PAIN BALM.

Mr. James N. Nichols, a merchant and postmaster at Vernon, Tenn., makes the following statement: "A little child of Michael Strauss was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Strauss came to me for something to stop the little one's pain. From the many liniments I carry in stock, I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommend it very often for cuts, burns, strains and lame back, and have never known it to disappoint." For sale by Chas. C. Davis, the leading druggist in Mt. ### Why We Favor The Bond Issue For Good Roads.

I favor the bond issue for good roads, because good roads are the up-building of any county or State, and without good roads we can never hope for our county to take the position, as compared with other counties of the State, which it ought to have.

S. W. DAVIS,  
Wholesale Saddlery.

I favor the bond issue for good roads, because I believe the building of roads in our county will be of greater benefit to our county than anything that can be done.

C. D. SUTTON, Clerk.

Nothing succeeds like success. With good pikes Rockcastle is a success. We have a good county, good people, and the best is none too good for us. Let us have the good roads.

J. W. BAKER,  
Merchant.

I favor the bond issue because it will place the people of the county in a better position to easily market everything they produce upon the farm—upon which the country depends.

Very truly,  
S. C. FRANKLIN,  
Jeweler.

We want the good roads so that we may be able to go where business calls us, with some degree of comfort and dispatch.

A. G. LOVELL, M. D.

We favor the bond issue because of the great benefit it will be to the county from a commercial standpoint.

W. L. RICHARDS,  
Cashier Bank of Mt. Vernon.

We favor the bond issue from the fact that it is the most economical and business like method of improving the present bad conditions of our roads.

A. B. FURNISH.

The contemplated bond issue is the most direct and immediate want supply, and at the same time the most direct enhancer of real estate.

M. B. SALIN,  
Cashier Peoples Bank.

We indorse the bond issue because it is the most satisfactory way of constructing roads in any county.

S. W. ADKINS, M. D.

We indorse the bond issue for good roads because the commercial interests of our county demand an improvement in our thoroughfares.

CHAS. C. DAVIS, Druggist.

I am in favor of turn-pikes because there is no plausible reason why I should not be. Nor is there any reason why any man in the county should not be in favor of pikes. In the first place it would greatly increase the value of the property in the county. It would give employment to the citizens of the county while constructing them and the money would go back to the county and remain in the county and make times more prosperous while the pikes were being built and that naturally would increase all kinds of business. It would benefit directly and indirectly every man, woman and child in the county. I want every man in the county to stop and think before you oppose this movement and after you think surely you will not oppose it but upon the other hand you will do all you can to make it a grand success. Now is the time to do something, don't wait until it is too late. Did you ever hear of a county building pikes and then being sorry they did it? No! no! a thousand times no, but they find that it is the greatest thing the county ever did. There is no reason why Rockcastle county should not come to the front and if we all do our part it is bound to come out victorious. No citizen should fight this movement just because he doesn't live right on the main road, but stop and think he is bound to get on the main road before he can get anywhere. We must not be afraid it will benefit one person more than another but remember "United we stand divided we fall," and all pull together and we are certain to have pikes.

M. L. MYERS,  
Dentist.

From a purely business standpoint, I favor the issuing and selling of bonds to give good roads to Rockcastle county. First, because by the present generation of people paying a small interest each year we will be enabled to have both the money and roads. Second, our farms and business properties will be doubled in value as soon as we have good roads. Third, by building these roads we give employment to our farmers and their teams, thereby keeping the money at home and giving us good roads, which will put our county in the rank to which it belongs.

U. G. BAKER,  
Merchant.

## DEMOCRATIC TICKET.

For Congress  
HON. HARVEY HELM,  
Of Lincoln.

OVER twenty two thousand people assembled in the New Armory building, Louisville, on Wednesday evening to hear the masterly speech of that great advocate of the people's rights, William Jennings Bryan. For one hour and a half, that large audience, though very warm and uncomfortable, sat as if spell-bound to listen to the oratory, logical reasoning and statements of facts as they fell from the lips of that great chieftain of the Democratic party. Because of some mis-constructions, honest on the part of some and willful and malicious with others, as to what was said in the New York speech on the question of Government ownership of railroads, he made the following statement or rather a rehash of what was said in the Madison Square garden speech:

"In my speech at the New York reception, I made some remarks concerning Government ownership of railroads. The New York speech was prepared in advance. I stated exactly what I wanted to state, and I have nothing to withdraw or modify."

If you ask me whether the question of Government ownership will be an issue in the campaign of 1908 I answer, I do not know. If you ask me whether it ought to be in the platform, I reply I cannot tell until I know what the Democratic voters think upon the subject. If the Democrats believe that the next platform should contain a plank in favor of Government ownership, then that plank ought to be included. If the Democrats think it ought not to contain such a plank, then the plank ought not to be included. I have spoken for myself and myself only, and I did not know how the suggestion would be received. I am now prepared to confess to you that it has been received more favorably than I expected."

R. G. WILLIAMS, of Covington, has officially announced his candidacy for the Democratic nomination for State Senator from Kenton county. "Dick," as he is known here, has risen fast, from the "smoothe-shaven lad" who made his appearance before the Covington bar by winning his first case, until now he is one of the most successful and prominent lawyers of that place. Eight years ago last November, after a hard fought campaign, he was made Judge of this county by a nice vote, being the first Democrat to hold that position in Rockcastle in a number of years. He made a most excellent Judge, one of the best the county has ever had, building good roads and fighting the liquor people. During his four years at Covington, "Dick" has made many friends, and if he puts up as stiff a fight there as he did in Rockcastle, he will be the next Senator from Kenton county.

THE ten indictments found against the Standard Oil Company by two Federal grand juries of Illinois, are in effect one, and constitute the longest indictment known in the history of the law, and yet this only covers the last three years. An indictment covering the whole number of years the company has been in existence would be useful in explaining to children how long eternity is.

## POLITICS AND POLITICIANS

Democrats of the Second Tennessee district in convention at Knoxville nominated E. L. Foster for Congress.

Gov. Higgins, of New York, visited Oyster Bay and held a conference with President Roosevelt on New York State Politics.

H. Clay Evans, Republican nominee for Governor, opened his campaign Monday in a speech to about 2,000 people at Lawrenceburg, Tenn.

President Roosevelt has appointed Col. Culver C. Sniffen to be Paymaster General of the army to succeed Gen. Francis S. Dodge, who retired Tuesday.

United States Senator Dick won the contest for the chairmanship of the Republican State Executive Committee, carrying with it the State leadership at Dayton, Ohio, Tuesday.

W. J. Bryan gave out a statement in Lincoln Monday announcing that as soon as his Southern trip is completed he will enter the campaign in Nebraska and other States.

Alabama Democrats in convention at Montgomery nominated John B. Tyson for Chief Justice of the Supreme Court and John H. Dowdell and T. C. McClellan for Associate Justices.

The Independence League convention held two sessions Tuesday in Carnegie Hall, New York, Hissses for W. T. Jerome and a big demonstration for W. R. Hearst were features of the evening session.

William T. Cobb, Republican, was Monday re-elected Governor of Maine by a plurality of less than 8,000 over Cyrus W. Davis, Democrat. Congressman Littlefield was re-elected by a greatly reduced plurality. All the other Republican probably have won, though the First district is in doubt.

The Democratic State Convention held at Dover, Delaware, nominated the following ticket: Congress, David T. Marvel, Washington; State Treasurer, Robert H. Wilson, Dover; State Auditor, Kendall M. Wiley, Bridgeville. William J. Bryan was endorsed for President.

In declaring against Government ownership as a plank in the Democratic platform, Senator Raynor, of Maryland, declares the party must if it wishes to make Mr. Bryan the nominee, make the contest on the personalities of the candidates, in which event Democratic chances would be even, no matter who is the Republican candidate.

The Republican Committees of Oklahoma and Indian Territory at a meeting in Oklahoma City Tuesday night failed to amalgamate and postponed further action in the matter until after the election of delegates to the Constitutional Convention. Until that time the Republican party will have a double organization, which many Republicans fear may be disastrous.

## FIFTY CENTS

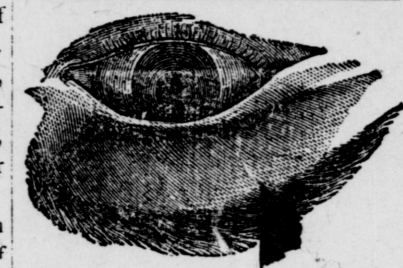

IN some conditions the gain from the use of Scott's Emulsion is very rapid. For this reason we put up a fifty-cent size, which is enough for an ordinary cough or cold or useful as a trial for babies and children. In other conditions the gain is slower—health cannot be built up in a day. In such cases Scott's Emulsion must be taken as nourishment; a food rather than a medicine. It's a food for tired and weak digestions.

Are you working for the bond issue, if not, why not?

Have you subscribed for the pike over the old town hill?

No matter what other kind of advertising you do, be sure to use the newspapers. If you have tried newspaper advertising and not found it a success, your advertising was poorly written or your system was wrong. Newspaper advertising can be made to pay anyone who uses it right, if right goods and right prices are right behind the talk.—Rhode Island Advertiser.

Richmond has an ordinance requiring citizens to cut the weeds on the streets and alley adjoining their property. The property owners refused, alleging it was the duty of city to do it. Judge Greenleaf, of the city court, has decided that the ordinance is valid and citizens must obey it.—Winchester Democrat.

Mt. Vernon has an ordinance requiring the property owners to keep the streets in front of their property clean, but there is no effort on the part of any one of the town authorities to enforce it.

Agricultural Commissioner Hubert Vreeland, has set Tuesday and Wednesday, October 16 and 17 as the dates for holding the Farmers' Institute in this county. An ample force of lecturers have been employed to cover the one hundred and nineteen counties and an instructive and profitable meeting is assured Rockcastle.

Here is a minister who appreciates the editor. At a recent editorial convention he offered the following toast: "To save an editor from starvation take his paper and pay for it promptly. To save him from bankruptcy, advertise in his paper liberally. To save him from despair, send him every item of news of which you can get hold. To save him from profanity write your correspondence on one side of the sheet and send it in as early as possible. To save him from mistakes, bury him. Dead people are the only ones who never make mistakes." Newspaper readers would do well to remember that there are no perfect people—editors or readers.

We want one to two Columns on the road question every issue until the election.

Jonas McKenzie has just completed the new room to his store which he will use for clothing.

Our correspondents have undoubtedly gone on a strike this week as only two put in their appearance.

We are glad to state that Mr. James McDonald is to remain with us as one of the instructors in the Brown Memorial School.

We had the pleasure of seeing our old friend R. M. Baker at Lebanon Junction yesterday, where he is doing well running a boarding house.

If the town trustees will appropriate every cent in the treasury for the building the pike over the town hill they will have done a good thing and will receive the plaudits of the people for so doing.

About two months ago Mr. H. C. Gentry lost his watch chain, a gold acorn, which he valued very highly because of the fact that it belonged to his father. A diligent search was made in vain for it, and all hope was lost of ever finding it again. On Monday Mrs. Gentry was dressing a chicken and in its gizzard found the much prized chain.

The Brown Memorial School opened here Monday with a good attendance. Several new teachers have been added and the school is better equipped than ever before. All the old pupils are back with many new ones, and this is sure to be a flourishing year. The people of the county should take great interest in the school and do all in their power for the upbuilding of same.

The case of Joe Taylor against the L. & N. R. Co., for the killing of his son, Tommy, was called Monday and has occupied the entire time of the court this week. Attorneys C. C. Williams and Robert Harding, of Danville, represented the plaintiff, the defense being represented by Atty. J. W. Brown and Judge Alcorn, of Stanford. The case was given to the jury yesterday.

LATER:—The case went to the jury about 4 o'clock yesterday afternoon, and after being out about 15 minutes, returned with a verdict for \$10,000, the full amount asked for in the suit. The case will be appealed.

DEAD:—About 2 o'clock yesterday, the spirit of Mrs. T. Fish took its flight to a grander and nobler world. The deceased was about 70 years of age and belonged to one of the oldest and most prominent families of the county. For a long time she had been a sufferer from stomach trouble, but her condition had not been considered serious until a month or six weeks ago, and since that time, she has been gradually growing weaker. She leaves two sons, Rev. M. G. Fish and J. Fish, the merchant. The burial will take place to-day at the Hiatt burying ground, beside her husband, who was the late Judge Will Fish.

Money is being raised among the people here by private subscription for the building of a pike across the old town hill. The proposed route starting at the residences of C. C. Williams and M. J. Miller on Main street and ending at the corporate limits. The pike will not follow the line of the old road but will follow in part a new right of way which will be donated by M. J. Miller and Fritz Krueger. At present this is one of the worst roads in the county and is the worst one leading into town. Last winter for months the road was so muddy that the wagons sank into the mud over the hubs of the wheels and at times the road was absolutely impassable. Over this road all the coal is brought into town, and in winter traveled more than any of the other roads leading into Mt. Vernon. The building of the pike will be rather expensive owing to the grade, but this sum is quickly being subscribed by all public spirited citizens of the town. The pike is in this place a necessity and all should give their aid. Messrs. Miller and Krueger have most generally donated land which was valuable, and all others are falling in line with nice amounts. If Mt. Vernon takes the lead by building this bit of pike the people of the county will soon realize that a pike is not a luxury but a necessity and for Rockcastle to ever be classed a successful and prosperous county pikes must be built throughout the whole of it.

Lincoln county went dry Wednesday by 1269 votes.

Sweet potatoes are now selling at \$1.00 per bushel, the high price being due to the rainy season.

Electric lights will soon be installed at Sparks Quarry, so that the work may be continued both day and night.

The Fifth State Development Convention is to be held at Winchester Oct. 10, 11 and 12, and Rockcastle should have several delegates.

The engine to be installed in the pump house furnishing water to the jail came Wednesday and within a few days the system will be in operation.

I. A. Bowman passed through town yesterday with 54 head of cattle which he had on the range in Jackson county.

Dr. S. C. Davis reports that there are more cases of fever and summer complaint among children in the county than Rockcastle has experienced for quite a while.

When Miss Ida M. Taylor first took charge of the school here on the first day she had less than twenty pupils, the second year school opened with about fifty, this year there were over seventy enrolled the first day.

The columns of this paper are open to the citizens of the county for a full discussion of the bond issue for good roads. A few lines giving your reasons why you favor it, will be of untold benefit. Let us hear from you next week. Long articles are not desirable, and will not be read and will not be as effective as short ones strictly to the point.

## RENT PAYS FOR THE LAND.

FERTILE SECTIONS OF THE SOUTHWEST, WHERE LAND SELLS FOR \$15 AND RENTS FOR \$5 PER ACRE.

One of the remarkable things about Eastern Arkansas and Northern Louisiana is the fact that cleared land rents for \$5 per acre cash and can be bought for \$7.50 to \$15 per acre. It costs \$6 to \$10 an acre to clear it. Other improvements are slight and inexpensive.

The soil is rich alluvial, or made. It produces a bale of cotton per acre, worth \$45 to \$60. This accounts for its high rental value. Other crops such as corn, small grains, grasses, vegetables and fruits thrive as well.

Alfalfa yields 4 to 6 cuttings, a ton a cutting, and brings \$10 to \$16 per ton. In other sections of these states, and in Texas as well, the rolling or hill-land is especially adapted to stock raising and fruit growing. Land is very cheap, \$5 to \$10; improved farms \$10, \$15 to \$25 per acre.

The new White River country offers many opportunities for settlers. High, rolling, fine water—it is naturally adapted to stock and fruit raising. Can be bought as low as \$3 per acre.

See this great country for yourself and pick out a location. Descriptive literature, with maps, free on request.

The Missouri Pacific-Iron Mountain System Lines sell reduced rate roundtrip tickets on first and third Tuesdays of each month, to points in the West and Southwest, good returning 21 days with stopovers. For descriptive literature, time tables, etc., write to

R. T. G. MATTHEWS, Traveling Passenger Agent, Louisville, Ky. or H. C. TOWNSEND, General Passenger & Ticket Agent, St. Louis, Mo.

CLUBBING OFFER:—Until further notice we will furnish the Signal and Weekly Courier Journal for \$1.50 a year, or the Signal and Louisville Herald (Daily) for \$2.00 Cash must accompany all orders under this arrangement.

## Kodol for Dyspepsia

Digests what you eat.

Consumption of young mutton is enormous. It astounds trade veterans who remember the time when a run of twenty loads of lambs in a single day glutted the Chicago market, says the Breeder's Gazette. More lambs were slaughtered at Chicago last week than ever before in the history of the trade. Although a heavy run occurred and it carried few sheep killers bought many bands of rangers without a cut-back, not even giving feeder buyers an opportunity to bid. With southern lambs exhausted, natives scarce and the East depleted, the western breeders will get better net results out of their lamb crop this year than ever. When range lambs sell straight at \$7.50 prices may be said to be high. There is a constantly increasing demand for young mutton from the Atlantic seaboard and the West must meet it. A feature of the range lamb supply is its superlative quality. If it is fetching good prices the fact that the breeder has done his best is largely responsible. Idaho is now marketing a crop of lambs that was never dreamed of ten years ago. It's quality is superb—Kentucky Advocate.

A bath cleanses the skin and rids the pores of refuse. A bath makes for better fellowship and citizenship. Not only should the outside of the body be cleansed, but occasional use of a laxative or cathartic opens the bowels and clears the system of effete matter. Best for this are DeWitt's Little Early Risers. Pleasant little pills that do not gripe or sicken. Sold by Chas. C. Davis.

In a wreck at Barbourville on the L. & N., at the Knox street crossing between a south bound passenger train and a freight, Fireman William Bryan, of the passenger train, was injured. None of the passengers was hurt.

Two hundred union plumbers went on a strike Tuesday for an increase of fifty cents in wages.

In these days of rush and hurry courtesy is often forgotten. In the mad, pell mell rush of our life little things are done to offend that we rather remain undone. A hastily eaten meal and its resultant headache may cause us social or financial loss. The wise man or woman is the one who relieves little ills of this sort by a little dose of Kodol for Dyspepsia. It digests what you eat and puts your stomach back into shape. Sold by Chas. C. Davis.

# DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube re-opened to its normal condition, hearing will be lost forever. It is a case of tenare caused by catarrh, which is not a local but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hat's Catarrh Cure. Send for circulars free.

# CURED HAY FEVER

# AND SUMMER COLD.

A. J. Nussbaum, Batesville, Ind., writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar in the yellow package, and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success. Chas. C. Davis.

Attention of leading farmers and business men of the State is now being attracted to the Fifth State Development Convention to be held at Winchester Oct. 10, 11 and 12. Mr. W. M. Dodd, of Houstonsville Ky., has sold his trotting bred road horse, which has attracted considerable attention in the show ring at several county fairs this season. The purchaser was W. L. Grady, of Adair county, and the price paid was \$500. The horse is by Gaulton Wilkes, by Gambetta Wilkes. T. A. Shropshire, of Pair, Ky., recently bought of Mr. John Allison, of the county, thirty highclass yearling Southdown ewes for \$350. Mr. Shropshire also bought some Poland China hogs of the large type of Dr. Huffman of Centerville. Mr. Shropshire expects to be a breeder of fancy Poland and China and high-class Southdowns.

The September crop report of the State Agricultural Department, issued Friday by Commissioner Hubert Vreeland, says that, upon the whole, the outlook for a good crop of tobacco is not flattering, as considerable damage has been done on low lands by too much wet weather, which has caused the leaves to rot off in the field. There is also much complaint of loss of corn in the early cutting. The average yield per acre of wheat for the State is a little over thirteen bushels. The corn crop will be a "bumper." The prospects for fall fruits are about three-fourths of a crop. Two counties report disease in cattle, there being some cholera among hogs. It is confined to a small territory.

**SOUTHWEST**  
**The Land of BIG CROPS and PROSPERITY**  
Are you making as much off your farm as you ought? No doubt you are making all you can. The trouble is the land costs too much. It takes too much money to buy a big farm, and so you are trying to make a living on a small farm, or perhaps you are renting one and paying a good share of what you raise, in rent. Wouldn't it be better to go where the price of good land is so little that you can own a big farm—where every acre of the ground is working for you and you raise is paying you good profits?  
There are thousands of acres of fertile land in the Southwest along the line of the Cotton Belt Route that can be bought for from \$3 to \$10 an acre. This land is increasing in value each year.  
**SEE THE SOUTHWEST AT SMALL COST**  
A trip to the Southwest would convince your best interests lay in settling there. The trip can be made at a very little expense. On the first and third Tuesdays of each month you can purchase a round trip ticket to any point in the Southwest on or via the Cotton Belt Route at very low rates. Stop-overs will be allowed for you to examine any locality you are interested in.  
Write at once for free copies of books describing this wonderful country and for full information about cost of tickets, etc.
